

ABOUT US

Arizona Security Professionals, LLC is a fully licensed and insured security agency and private investigation agency operating throughout Arizona. Providing expert service and consultation in every area of security, we combine many years of law enforcement experience on our management and guard teams.

ASP team members are capable of providing additional services such a private investigations, skip tracing and expert security consulting. ASP completes your security needs on every level, be it uniformed and plain clothed guards (armed or unarmed), personal and executive protection, we have the training and personnel you require.

Every ASP team member including administration, dispatchers and guards are required to pass a stringent criminal background check. YOU need to know that every ASP employee has passed a strict criminal history check. ASP cares about our employee's criminal histories and so should you. ASP works hard to reduce liability for us and our clients. Simply put...ASP cares

TRAINING

Training For Tomorrows Needs, Today.

Arizona Security Professionals, LLC provides high quality training through our academy and we are AZDPS (Arizona Department of Public Safety) approved and licensed.

ASP instructors are all former and current law enforcement and military operators. ASP courses and methods are of the highest quality, and have gained the trust and respect of other security companies that send their security guards to us for training. ASP provides training clients with a written guarantee that ASP will not recruit the personnel they send to ASP for training. To reduce the liability to you and your clients you should really know what is being taught and who is teaching it to your valued employees.

Some of the courses ASP offers are (but not limited to):

- **Basic Unarmed Security Guard Certification**
- **Armed Security Guard Certification • Defensive Tactics**
- **Police Communication • Court Room Testimony**
- **8 Hour Armed Refresher • Security Survival Techniques**
- **Concealed Carry Weapons Certification (CCW)**
- **Taser M26/X26 Certification Class • Criminal Code (Law)**
- **Report Writing and Field Note Taking • Public Relations**
- **Handcuffing • OC Spray • Expandable Baton**

All ASP courses meet the standards of law, and the regulations of Department of Public Safety. Classes are offered to other security companies, individual guards and open to the public. ASP will provide a written agreement to not hire any employee from another like company.

ASP STANDARDS

Professional, Experienced, Knowledgeable & Extraordinary.

ASP team members get the job done right the first time. ASP does not hire the standard security guard. ASP guards are all handpicked by the command staff. Most ASP guards bring with them real world experience from places like the United States Military, police departments, corrections departments and fire departments from all over the country. ASP hiring standards require that if an applicant applies without these traits they must possess other qualities from the professional business world. The average ASP security guard has some degree of college education with many officers holding advanced degrees. We care about whom we hire and train and so should our clients!

Training and experience is what sets ASP above the rest. Our management and operations team includes people with law enforcement experience at the local and state levels with many years of experience. This being said, it's long been recognized that a team rises no higher than its leadership.

Arizona Security Professionals, LLC is fully licensed by the Arizona Department of Public Safety. We are fully insured to surpass the minimum state requirements.
